

WHAT YOU NEED:

- Scissors
- Small hole puncher
- Ribbon or twine, approximately 6 inches long
- Fantastic Four Ornament Paper

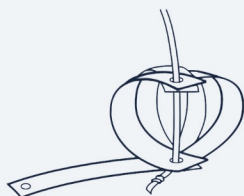

DIRECTIONS:

1. Cut the 12 strips from one of the Fantastic Four Ornament Papers on next page. Punch a small hole at both the top and the bottom of each strip in the same position as the others.

2. Tie a knot in the end of the ribbon and thread through the bottom hole of all strips.

3. Thread the ribbon through the top hole of one strip and carry on doing the same with each subsequent strip. Push the pieces down to create an arc out of the strips of paper. Fan out the paper strips as you work around back to the starting place.

4. Once all of the strips are strung and fanned out to the desired shape, tie a knot at the top to keep the strips in place.

5. Thread any other embellishment you would like on the top of the ornament before tying a loop at the end for use of hanging.
